## **DETAILED ACTION**

1. This communication is in response to the Applicant's application filed October 26, 2001. Claims 1-56 are pending and claims 1, 16, 27, 32, 35 and 48 are independent claims. In view of Applicant's claims, the election to one of the following inventions is deemed necessary. The restrictions cited are as stated below:

## Election/Restriction

- 2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-26 are drawn to a method of bulk purchasing data content including: authenticating based upon exchanged system information; placing an electronic order for said data content of interest based upon synchronization without an authorization process.
- II. Claims 27-31 are drawn to a system for bulk purchases of data content over a network comprising transmitting data; receiving and recording in response to data content.
- III. Claims 32-47 are drawn to a method of bulk purchasing data content including: authorizing payments and placing orders based upon the authorization.
- IV. Claims 48-56 are drawn to a method of bulk purchasing data content including: transmitting information; receiving authorization information and placing orders based upon the authorization without tracking or accumulating.

Application/Control Number: 10/045,120 Page 3

Art Unit: 3693

3. The inventions are distinct, each from the other because of the following reasons:

(a) Inventions I -IV are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the subcombinations have separate utility such as: bulk purchasing including authenticating, placing and receiving; bulk purchasing including transmitting, receiving and recording information; bulk purchasing including authorizing payments and placing orders; and

bulk purchasing including transmitting information, receiving authorization and placing orders.

4. The independent claims in each Group I-IV recite limitations that are not found together in a common independent claim of the other group, thus it is evidence that Applicant believes a distinct invention combination lies within each set of independent claims. Also, dependent claims then append a multiple of distinct inventive concepts for which Applicant's submission is evidence that Applicant believes each supports a distinct reason for invention. See MPEP § 806.05(d).

6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different concepts, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of one of the inventions I-IV to be examined even though the requirement be traversed (37 C.F.R. § 1.143).

- 7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
- 8. A shortened statutory period for response to this action is set to expire 0 (zero) months and 30 (thirty) days from the mail date of this letter. Failure to respond within the period for response will result in ABANDONMENT of the application (see 35 U.S.C 133, M.P.E.P 710.02, 710.02(b)).

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jocelyn Greimel whose telephone number is (571) 272-3734. The examiner can normally be reached Monday - Friday 8:30 AM - 4:30 PM EST.

Application/Control Number: 10/045,120 Page 5

Art Unit: 3693

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, James Trammell can be reached at (571) 272-6712. The fax phone number for the

organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would

like assistance from a USPTO Customer Service Representative or access to the automated

information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
